MEMORANDUM FOR: Chief, Plans and Programs Staff, OL

FROM:

[Redacted]

Chief, Systems Analysis Branch, OL

SUBJECT: OL Strategic Plan Update

REFERENCE: Memo for C/SAB/OL, dtd 21 August 1981,
Subject: Office of Logistics Strategic
Plan Update (OL 1 3539)

The current Strategic Plan refers to the creation of "a centralized OL management and control activity to monitor ADP development and ensure systems are evaluated in terms of OL management objectives". I recommend that the plan also include the creation of a Data Administrator. The Data Administrator would be responsible for standardization, control and use of OL data. The data administration function may or may not be included in the ADP resource management function. It should, however, be at the Office level and have sufficient authority over OL line management to meet the responsibilities of the job.
